

KING CRACKERS

The revolutionary nut cracker for cracking of wet nut with consistent high cracking efficiency. Easy and low cost maintenance. No. more re-building of ripple mill with welding.

FEATURES

1. Uses stator rods which can be renewed by dismantling of non-drive end side plate.
2. Bearing housings are designed for easy dismantling and adjustment.
3. Two sided stator, automatic spare to minimise maintenance downtime.
4. Hardness of the rods are more consistent than conventional hard-facing.
